Your work inspires all of us at Long Beach City College.
We are so proud that your work to help our student parents is
being recognized by the League for Innovation in the Community College.

LEAGUE AWARDS

Foreword

The League for Innovation in the Community College has been dedicated to informing, inspiring, and celebrating innovation in learning, teaching, professional development, and student success for 55 years. Over 35 years ago, we created the Innovation of the Year Awards to recognize innovative programs, practices, and initiatives that improve the ability of community colleges to serve students and the community, and honor those who created and implemented them. In 2012, the League established the Excellence Awards to celebrate outstanding faculty, staff, and leaders in the community college field who have made a significant difference in the lives of students and in the communities their institutions serve. As colleges continue to experience the domino effects of the coronavirus, enrollment declines, staffing issues, and leadership shifts, award recipients' efforts ensure that we will meet the future with confidence and purpose.

This program features the distinguished 2022-2023 Innovation of the Year Award winners and 2023-2024 Excellence Award recipients from our member colleges. The League thanks participating colleges for providing this opportunity to recognize extraordinary faculty, staff, and administrators. We appreciate your support and willingness to share your college's experiences with the field, as together we carry on the legacy of the community college movement.
