

Collaborative Partnerships: Delta College

Our employer partners have been crucial to the success of Delta College's Walmart Brighter Futures 2.0 Project. They have shared anticipated hiring data and provided input and feedback on our curriculum, as well as performance on the job by graduates of the program. Our training programs are successful because of the employment opportunities available from our employer partners for successful program completers.

Great Lakes Bay Michigan Works!, our local Workforce Development Board, has also been a stellar partner in the success of our Walmart Brighter Futures 2.0 program. Great Lakes Bay Michigan Works! promotes the program; recruits participants; provides employability, GED, and Work Keys training; and provides post-employment services. They also provide training funding in addition to the Walmart Foundation.
