

PSA

The Walmart Brighter Futures 2.0 Project is designed to help low income adults and older youth acquire the knowledge, tools, and credentials necessary to obtain middle-skill jobs. The Walmart Brighter Futures 2.0 Project helps students with training, resources, and support to complete an industry credential program, vocational certification, or an AS degree program with an eye on future employment, financial gain, and greater fiscal stability and freedom. The Walmart Brighter Futures 2.0 Project is a grant program funded through the Walmart Foundation and the League of Innovation working in direct cooperation with Santa Fe College. For more information regarding the Walmart Brighter Future 2.0 Project visit the Project Webpage at <http://www.sfcollege.edu/academicfoundations/brightfutures/> , contact Project Coordinator Harold Gertner at 352-381-3817 or harold.gertner@sfcollege.edu
